

NOTICE OF AVAILABILITY
Finding of No Significant Impact
Missouri Department of Transportation

DATE: March 3, 2012

SUBJECT: Notice of Availability of Finding of No Significant Impact
(Pursuant to: 23 CFR 771.121 (b))

PROJECT: Missouri Route 5, Camden County, Missouri,
Hurricane Deck Bridge, Job Number J5P2188

CC: FHWA

This is to advise you that the Federal Highway Administration has made a finding of No Significant Impact (FONSI) for this project. The FONSI is available for electronic viewing on MoDOT's website at http://www.modot.org/central/major_projects/camden.htm.

A hard copy can be obtained upon written request to:

Mr. David Nichols, Chief Engineer
Missouri Dept. of Transportation
P.O. Box 270
Jefferson City, MO 65102

A previous FONSI was issued on September 2, 2011, for construction of a new two-lane bridge on the existing piers. The project was subsequently bid using an Alternate Technical Concept (ATC) process as described in the EA. The project was awarded based on an ATC to construct a new bridge located 38 feet east of the existing structure, centerline to centerline. The ATC was evaluated in the EA as the Adjacent East Location alternative. The 2012 FONSI is for construction of a new two-lane bridge on new piers just east of the existing bridge location.
